

Assembly Bill No. 438

CHAPTER 796

An act to amend Sections 65400, 65583.1, and 65584 of the Government Code, relating to housing.

[Approved by Governor September 23, 1998. Filed
with Secretary of State September 24, 1998.]

LEGISLATIVE COUNSEL'S DIGEST

AB 438, Torlakson. Housing elements: adequate housing sites and regional housing needs.

(1) Existing law requires each city, county, and city and county to adopt for its jurisdiction, according to specified deadlines, a general plan that includes certain mandatory elements, including a housing element. Under existing law, the housing element identifies and analyzes existing and projected housing needs as well as a statement of goals, policies, quantified objectives, and scheduled programs for the preservation, improvement, and development of housing. Further, under existing law the Legislature has declared that the availability of housing is a matter of vital statewide importance and the early attainment of decent housing and a suitable living environment for every California family is a priority of the highest order.

This bill would state the intent of the Legislature to amend the Planning and Zoning Law relating to the housing element of a community's general plan to assist local governmental entities, builders, housing developers, sponsors, and planners in producing the greatest number of safe, sanitary, decent, and affordable housing units by the most cost-effective means possible.

(2) Existing law requires that each planning agency provide an annual report to the legislative body on progress in meeting regional housing needs, as specified, and requires that the report be provided, using forms and definitions adopted by the Department of Housing and Community Development pursuant to the Administrative Procedure Act, to the legislative body on or before July 1 of each year.

This bill would require that the annual report also be provided to the Office of Planning and Research and the Department of Housing and Community Development. This requirement would impose a state-mandated local program.

(3) Existing law requires the Department of Housing and Community Development to evaluate each housing element for consistency with state law including, among other things, a requirement for a program setting forth a 5-year schedule of actions the local government is undertaking or intends to undertake to

achieve the goals of the housing element that includes the identification of sites to be made available to encourage the development of a variety of types of housing for all income levels. It permits the department to allow a local government to identify adequate sites for this purpose by a variety of methods, as specified.

This bill would authorize the department to allow a city or county to substitute the provision of units for up to 25% of its site identification obligation if it includes in its housing element a program to provide units within the city or county in any income category that will be made available to low- and very low income households through the provision of committed assistance, as defined, subject to specified criteria.

(4) Existing law prescribes criteria for the department to determine the distribution of regional housing needs based on data provided by the Department of Finance, in consultation with each council of governments.

This bill would require that determination to be based on specified population projections and forecasts.

(5) Existing law requires the appropriate council of governments to determine the regional housing need and city and county shares.

This bill would require the council of governments to provide a subregion with its share of the regional housing need, and to delegate responsibility for providing allocations to cities and counties, upon request of those entities, to a subregional entity according to a prescribed agreement.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that the Legislature finds there is no mandate contained in the bill that will result in costs incurred by a local agency or school district for a new program or higher level of service which require reimbursement pursuant to these constitutional and statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature to amend the Planning and Zoning Law with respect to the housing element of a community's general plan to assist local governmental entities, builders, housing developers, sponsors, and planners in producing the greatest number of safe, sanitary, decent, and affordable housing units by the most cost-effective means possible.

SEC. 2. Section 65400 of the Government Code is amended to read:

65400. After the legislative body has adopted all or part of a general plan, the planning agency shall do both of the following:

(a) Investigate and make recommendations to the legislative body regarding reasonable and practical means for implementing the general plan or element of the general plan, so that it will serve as an effective guide for orderly growth and development, preservation and conservation of open-space land and natural resources, and the efficient expenditure of public funds relating to the subjects addressed in the general plan.

(b) (1) Provide an annual report to the legislative body, the Office of Planning and Research, and the Department of Housing and Community Development on the status of the plan and progress in its implementation, including the progress in meeting its share of regional housing needs determined pursuant to Section 65584 and local efforts to remove governmental constraints to the maintenance, improvement, and development of housing pursuant to paragraph (3) of subdivision (c) of Section 65583.

(2) The annual report required to be provided to the Office of Planning and Research and the Department of Housing and Community Development pursuant to this subdivision shall be prepared through the use of forms and definitions adopted by the Department of Housing and Community Development pursuant to the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of, Chapter 4 (commencing with Section 11370) of, and Chapter 5 (commencing with Section 11500) of, Part 1 of Division 3 of Title 2). This report shall be provided to the legislative body, the Office of Planning and Research, and the Department of Housing and Community Development on or before July 1 of each year.

SEC. 3. Section 65583.1 of the Government Code is amended to read:

65583.1. (a) The Department of Housing and Community Development, in evaluating a proposed or adopted housing element for consistency with state law, may allow a city or county to identify adequate sites, as required pursuant to Section 65583, by a variety of methods, including, but not limited to, redesignation of property to a more intense land use category and increasing the density allowed within one or more categories. Nothing in this section reduces the responsibility of a city or county to identify, by income category, the total number of sites for residential development as required by this article.

(b) Sites that contain permanent housing units located on a military base undergoing closure or conversion as a result of action pursuant to the Defense Authorization Amendments and Base Closure and Realignment Act (Public Law 100-526), the Defense Base Closure and Realignment Act of 1990 (Public Law 101-510), or any subsequent act requiring the closure or conversion of a military base may be identified as an adequate site if the housing element demonstrates that the housing units will be available for occupancy

by households within the planning period of the element. No sites containing housing units scheduled or planned for demolition or conversion to nonresidential uses shall qualify as an adequate site.

Any city, city and county, or county using this subdivision shall address the progress in meeting this section in the reports provided pursuant to paragraph (1) of subdivision (b) of Section 65400.

(c) (1) The Department of Housing and Community Development may allow a city or county to substitute the provision of units for up to 25 percent of the community's obligation to identify adequate sites for any income category in its housing element pursuant to paragraph (1) of subdivision (c) of Section 65583 if the community includes in its housing element a program committing the local government to provide units in that income category within the city or county that will be made available through the provision of committed assistance during the planning period covered by the element to low- and very low income households at affordable housing costs or affordable rents, as defined in Sections 50052.5 and 50053 of the Health and Safety Code, and which meet the requirements of paragraph (2). Except as otherwise provided in this subdivision, the community may substitute one dwelling unit for one dwelling unit site in the applicable income category. The program shall do all of the following:

(A) Identify the specific, existing sources of committed assistance and dedicate a specific portion of the funds from those sources to the provision of housing pursuant to this subdivision.

(B) Indicate the number of units that will be provided to both low- and very low income households and demonstrate that the amount of dedicated funds is sufficient to develop the units at affordable housing costs or affordable rents.

(C) Demonstrate that the units meet the requirements of paragraph (2).

(2) Only units that comply with subparagraph (A), (B), or (C) qualify for inclusion in the housing element program described in paragraph (1), as follows:

(A) Units that are to be substantially rehabilitated with committed assistance from the city or county and constitute a net increase in the community's stock of housing affordable to low- and very low income households. For purposes of this subparagraph, a unit is not eligible to be "substantially rehabilitated" unless all of the following requirements are met:

(i) At the time the unit is identified for substantial rehabilitation, (I) the local government has determined that the unit is at imminent risk of loss to the housing stock, (II) the local government has committed to provide relocation assistance pursuant to Chapter 16 (commencing with Section 7260) of Division 7 of Title 1 to any occupants temporarily or permanently displaced by the rehabilitation or code enforcement activity, (III) the local

government requires that any displaced occupants will have the right to reoccupy the rehabilitated units, and (IV) the unit has been cited and found by the local code enforcement agency or a court to be unfit for human habitation and vacated or subject to being vacated because of the existence for not less than 120 days of four of the conditions listed in subdivisions (a) to (g), inclusive, of Section 17995.3 of the Health and Safety Code.

(ii) The rehabilitated unit will have long-term affordability covenants and restrictions that require the unit to be available to, and occupied by, persons or families of low- or very low income at affordable housing costs for at least 20 years or the time period required by any applicable federal or state law or regulation, except that if the period is less than 20 years, only one unit shall be credited as an identified adequate site for every three units rehabilitated pursuant to this section, and no credit shall be allowed for a unit required to remain affordable for less than 10 years.

(iii) Prior to initial occupancy after rehabilitation, the local code enforcement agency shall issue a certificate of occupancy indicating compliance with all applicable state and local building code and health and safety code requirements.

(B) Units that are located in a multifamily rental housing complex of 16 or more units, are converted with committed assistance from the city or county from nonaffordable to affordable by acquisition of the unit or the purchase of affordability covenants and restrictions for the unit, are not acquired by eminent domain, and constitute a net increase in the community's stock of housing affordable to low- and very low income households. For purposes of this subparagraph, a unit is not converted by acquisition or the purchase of affordability covenants unless all of the following occur:

(i) The unit is made available at a cost affordable to low- or very low income households.

(ii) At the time the unit is identified for acquisition, the unit is not available at a cost affordable to low- or very low income households.

(iii) At the time the unit is identified for acquisition the unit is not occupied by low- or very low income households.

(iv) The unit is in decent, safe, and sanitary condition at the time of occupancy.

(v) The acquisition price is not greater than 120 percent of the median price for housing units in the city or county.

(vi) The unit has long-term affordability covenants and restrictions that require the unit to be affordable to persons of low or very low income for not less than 30 years.

(C) Units that will be preserved at affordable housing costs to persons or families of low or very low incomes with committed assistance from the city or county by acquisition of the unit or the purchase of affordability covenants for the unit. For purposes of this

subparagraph, a unit shall not be deemed preserved unless all of the following occur:

(i) The unit has long-term affordability covenants and restrictions that require the unit to be affordable to and reserved for occupancy by persons of the same or lower income group as the current occupants for a period of at least 40 years.

(ii) The unit is multifamily rental housing that receives governmental assistance under any of the following state and federal programs: Section 221(d)(3) of the National Housing Act (12 U.S.C. Sec. 1715l(d)(3) and (5)); Section 236 of the National Housing Act (12 U.S.C. Sec. 1715z-1); Section 202 of the Housing Act of 1959 (12 U.S.C. Sec. 1701q); for rent supplement assistance under Section 101 of the Housing and Urban Development Act of 1965, as amended (12 U.S.C. Sec. 1701s); under Section 515 of the Housing Act of 1949, as amended (42 U.S.C. Sec. 1485); and any new construction, substantial rehabilitation, moderate rehabilitation, property disposition, and loan management set-aside programs, or any other program providing project-based assistance, under Section 8 of the United States Housing Act of 1937, as amended (42 U.S.C. Sec. 1437f); any state and local multifamily revenue bond programs; local redevelopment programs; the federal Community Development Block Grant Program; and other local housing assistance programs or units that were used to qualify for a density bonus pursuant to Section 65916.

(iii) The city or county finds, after a public hearing, that the unit is eligible, and is reasonably expected, to change from housing affordable to low- and very low income households to any other use during the next five years due to termination of subsidy contracts, mortgage prepayment, or expiration of restrictions on use.

(iv) The unit is in decent, safe, and sanitary condition at the time of occupancy.

(v) At the time the unit is identified for preservation it is available at affordable cost to persons or families of low or very low income.

(3) This subdivision does not apply to any city or county that, during the current or immediately prior planning period, as defined by Section 65588, has not met any of its share of the regional need for affordable housing, as defined in Section 65584, for low- and very low income households. A city or county shall document for any such housing unit that a building permit has been issued and all development and permit fees have been paid or the unit is eligible to be lawfully occupied.

(4) For purposes of this subdivision, “committed assistance” means that the city or county enters into a legally enforceable agreement during the first two years of the housing element planning period that obligates sufficient available funds to provide the assistance necessary to make the identified units affordable and that requires that the units be made available for occupancy within

two years of the execution of the agreement. “Committed assistance” does not include tenant-based rental assistance.

(5) For purposes of this subdivision, “net increase” includes only housing units provided committed assistance pursuant to subparagraph (A) or (B) of paragraph (2) in the current planning period, as defined in Section 65588, that were not provided committed assistance in the immediately prior planning period.

(6) For purposes of this subdivision, “the time the unit is identified” means the earliest time when any city or county agent, acting on behalf of a public entity, has proposed in writing or has proposed orally or in writing to the property owner, that the unit be considered for substantial rehabilitation, acquisition, or preservation.

(7) On July 1 of the third year of the planning period, as defined by Section 65588, in the report required pursuant to Section 65400, each city or county that has included in its housing element a program to provide units pursuant to subparagraph (A), (B), or (C) of paragraph (2) shall report in writing to the legislative body, and to the department within 30 days of making its report to the legislative body, on its progress in providing units pursuant to this subdivision. The report shall identify the specific units for which committed assistance has been provided or which have been made available to low- and very low income households, and it shall adequately document how each unit complies with this subdivision. If, by July 1 of the third year of the planning period, the city or county has not entered into an enforceable agreement of committed assistance for all units specified in the programs adopted pursuant to subparagraph (A), (B), or (C) of paragraph (2), the city or county shall, not later than July 1 of the fourth year of the planning period, adopt an amended housing element in accordance with Section 65585, identifying additional adequate sites pursuant to paragraph (1) of subdivision (c) of Section 65583 sufficient to accommodate the number of units for which committed assistance was not provided. If a city or county does not amend its housing element to identify adequate sites to address any shortfall, or fails to complete the rehabilitation, acquisition, purchase of affordability covenants, or the preservation of any housing unit within two years after committed assistance was provided to that unit, it shall be prohibited from identifying units pursuant to subparagraph (A), (B), or (C) of paragraph (2) in the housing element that it adopts for the next planning period, as defined in Section 65588, above the number of units actually provided or preserved due to committed assistance.

SEC. 4. Section 65584 of the Government Code is amended to read:

65584. (a) For purposes of subdivision (a) of Section 65583, the share of a city or county of the regional housing needs includes that share of the housing need of persons at all income levels within the area significantly affected by a general plan of the city or county. The

distribution of regional housing needs shall, based upon available data, take into consideration market demand for housing, employment opportunities, the availability of suitable sites and public facilities, commuting patterns, type and tenure of housing need, the loss of units contained in assisted housing developments, as defined in paragraph (8) of subdivision (a) of Section 65583, that changed to non-low-income use through mortgage prepayment, subsidy contract expirations, or termination of use restrictions, and the housing needs of farmworkers. The distribution shall seek to reduce the concentration of lower income households in cities or counties which already have disproportionately high proportions of lower income households. Based upon population projections produced by the Department of Finance and regional population forecasts used in preparing regional transportation plans, and in consultation with each council of governments, the Department of Housing and Community Development shall determine the regional share of the statewide housing need at least two years prior to the second revision, and all subsequent revisions as required pursuant to Section 65588. Based upon data provided by the department relative to the statewide need for housing, each council of governments shall determine the existing and projected housing need for its region. Within 30 days following notification of this determination, the department shall ensure that this determination is consistent with the statewide housing need. The department may revise the determination of the council of governments if necessary to obtain this consistency. The appropriate council of governments shall determine the share for each city or county consistent with the criteria of this subdivision and with the advice of the department subject to the procedure established pursuant to subdivision (c) at least one year prior to the second revision, and at five-year intervals following the second revision pursuant to Section 65588. The council of governments shall submit to the department information regarding the assumptions and methodology to be used in allocating the regional housing need. As part of the allocation of the regional housing need, the council of governments, or the department pursuant to subdivision (b), shall provide each city and county with data describing the assumptions and methodology used in calculating its share of the regional housing need. The department shall submit to each council of governments information regarding the assumptions and methodology to be used in allocating the regional share of the statewide housing need. As part of its determination of the regional share of the statewide housing need, the department shall provide each council of governments with data describing the assumptions and methodology used in calculating its share of the statewide housing need. The councils of governments shall provide each city and county with the department's information. The council of governments shall provide a subregion with its share of the

regional housing need, and delegate responsibility for providing allocations to cities and a county or counties in the subregion to a subregional entity if this responsibility is requested by a county and all cities in the county, a joint powers authority established pursuant to Chapter 5 (commencing with Section 6500) of Division 7 of Title 1, or the governing body of a subregional agency established by the council of governments, in accordance with an agreement entered into between the council of governments and the subregional entity that sets forth the process, timing, and other terms and conditions of that delegation of responsibility.

(b) For areas with no council of governments, the department shall determine housing market areas and define the regional housing need for cities and counties within these areas pursuant to the provisions for the distribution of regional housing needs in subdivision (a). If the department determines that a city or county possesses the capability and resources and has agreed to accept the responsibility, with respect to its jurisdiction, for the identification and determination of housing market areas and regional housing needs, the department shall delegate this responsibility to the cities and counties within these areas.

(c) (1) Within 90 days following a determination of a council of governments pursuant to subdivision (a), or the department's determination pursuant to subdivision (b), a city or county may propose to revise the determination of its share of the regional housing need in accordance with the considerations set forth in subdivision (a). The proposed revised share shall be based upon available data and accepted planning methodology, and supported by adequate documentation.

(2) Within 60 days after the time period for the revision by the city or county, the council of governments or the department, as the case may be, shall accept the proposed revision, modify its earlier determination, or indicate, based upon available data and accepted planning methodology, why the proposed revision is inconsistent with the regional housing need.

(A) If the council of governments or the department, as the case may be, does not accept the proposed revision, then the city or county shall have the right to request a public hearing to review the determination within 30 days.

(B) The city or county shall be notified within 30 days by certified mail, return receipt requested, of at least one public hearing regarding the determination.

(C) The date of the hearing shall be at least 30 days from the date of the notification.

(D) Before making its final determination, the council of governments or the department, as the case may be, shall consider comments, recommendations, available data, accepted planning

methodology, and local geological and topographic restraints on the production of housing.

(3) If the council of governments or the department accepts the proposed revision or modifies its earlier determination, the city or county shall use that share. If the council of governments or the department grant a revised allocation pursuant to paragraph (1), the council of governments or the department shall ensure that the current total housing need is maintained. If the council of governments or department indicates that the proposed revision is inconsistent with the regional housing need, the city or county shall use the share which was originally determined by the council of governments or the department.

(4) The determination of the council of governments or the department, as the case may be, shall be subject to judicial review pursuant to Section 1094.5 of the Code of Civil Procedure.

(5) The council of governments or the department shall reduce the share of regional housing needs of a county if all of the following conditions are met:

(A) One or more cities within the county agree to increase its share or their shares in an amount which will make up for the reduction.

(B) The transfer of shares shall only occur between a county and cities within that county.

(C) The county's share of low-income and very low income housing shall be reduced only in proportion to the amount by which the county's share of moderate- and above moderate-income housing is reduced.

(D) The council of governments or the department, whichever assigned the county's share, shall have authority over the approval of the proposed reduction, taking into consideration the criteria of subdivision (a).

(6) The housing element shall contain an analysis of the factors and circumstances, with all supporting data, justifying the revision. All materials and data used to justify any revision shall be made available upon request by any interested party within seven days upon payment of reasonable costs of reproduction unless the costs are waived due to economic hardship.

(d) (1) Except as provided in paragraph (2), any ordinance, policy, or standard of a city or county that directly limits, by number, the building permits that may be issued for residential construction, or limits for a set period of time the number of buildable lots that may be developed for residential purposes, shall not be a justification for a determination or a reduction in the share of a city or county of the regional housing need.

(2) Paragraph (1) does not apply to any city or county that imposes a moratorium on residential construction for a specified period of time in order to preserve and protect the public health and

safety. If a moratorium is in effect, the city or county shall, prior to a revision pursuant to subdivision (c), adopt findings that specifically describe the threat to the public health and safety and the reasons why construction of the number of units specified as its share of the regional housing need would prevent the mitigation of that threat.

(e) Any authority to review and revise the share of a city or county of the regional housing need granted under this section shall not constitute authority to revise, approve, or disapprove the manner in which the share of the city or county of the regional housing need is implemented through its housing program.

(f) A fee may be charged interested parties for any additional costs caused by the amendments made to subdivision (c) by Chapter 1684 of the Statutes of 1984 reducing from 45 to seven days the time within which materials and data shall be made available to interested parties.

(g) Determinations made by the department, a council of governments, or a city or county pursuant to this section are exempt from the California Environmental Quality Act, Division 13 (commencing with Section 21000) of the Public Resources Code.

SEC. 5. Pursuant to Section 17579 of the Government Code, the Legislature finds that there is no mandate contained in this act that will result in costs incurred by a local agency or school district for a new program or higher level of service which require reimbursement pursuant to Section 6 of Article XIII B of the California Constitution and Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.
